

HEAVY DUTY BRAKE FLUID DOT 3 / DOT 4

Synthetic brake fluid DOT 4 is intended for use in all modern automotive hydraulic brake and clutch systems where the car manufacturers recommend the use of fluids with specifications DOT 3 and DOT 4. This production meets the international requirements for DOT 4 brake fluids. It does not harm the rubber parts and brake hoses. Contains inhibitors which prevent aluminum, steel, iron, copper and other parts corrosion.

This product is usable in different locations at various temperatures.

FORCE GEAR OIL 75W90 - 75W80 - 80W90 - 140 / GL 4

Crop Iran gear oils are manufactured according to an advanced formula and are used in high quality synthetic & mineral oils and additives with best quality in their production.

This type of oil is suitable for use in gearboxes and other light and heavy vehicles.

Properties:

High protection against corrosion, rust, and foaming and EP properties.

Application:

- Manual gearboxes, differential gearboxes, and hypocycloidal axle recommend the use of the desired grade and quality level for automotive manufacturers that can withstand moderate to high load and load conditions.
- Types of passenger cars and semi-heavy and heavy-duty cars that have been recommended for GL4 quality.

Crop gear oils include the following grades:
SAE 140 – SAE 80W90 – SAE 75W80 – SAE 75W90

WINDSHIELD CLEANER

Croup Iran's windshield cleaner is a combination of detergents with good cleaning power and alcohol. This liquid is compatible with hard water and its properties are stable in heat and cold weather.

Features :

- Removes dust and stains from car glass
- It makes the glass clear and clean
- Quickly dry on glass and leave no stain
- In winter, it prevents the glass washing liquid from freezing in its reservoir
- Cleans the path of windshield fluid
- Prevents drying of wiper blades
- Compatible with car paint and rubber and plastic parts
- Reduces reflection of light

HYDRAULIC FLUID VG46 - VG68

Hydraulic oils VG68 & VG46 manufactured by Crop Iran are according to the Iranian National Standard No. 6421 and are a combination of the best base oils and high quality additives.

Hydraulic oil VG68 has a high quality and has high pressure, high temperature, anti-wear and anti-oxidation properties. This oil can extend the life of the hydraulic system with the ability to transfer proper force and also has the ability to filter.

Applications:

Can be used in the steering unit for all types of light and heavy vehicles; domestic and foreign cars; hydraulic systems for industrial and agricultural machinery. Hydraulic oil VG64 has excellent lubrication capability and increases the service life of the hydraulic system by transferring the proper force. Applicable to all hydraulic systems, especially hydrostatic. Types of industrial and agricultural machinery. Types of jack and auxiliary springs and general lubricants.

WATERLESS CAR WASH

With Crop Waterless Car wash, you are able to clean and Protect and shine your car without any water.

This production is made of materials suitable for your car's body cleaning without any water, while creating protective layers Prevents stains and dirt on it.

This production cleans your car and makes it shiny at the same time.

Also This product shields and shines the car body without adversely affecting the rubber and plastic parts.
